

Align comment with method body

Use space to give breath to code

addLast: `newObject`

"Add newObject to the end of the receiver. Answer newObject."

Highlight control flow

`lastIndex = array` size

`ifTrue: [self makeRoomAtLast].`

`lastIndex := lastIndex + 1.`

`array at: lastIndex put: newObject.`

`^ newObject`

Separate signature and comments
from method body

Indent method body

Use tabs not spaces to indent
